
OPERATIONAL PLANNING & DATA ANALYST –

UP TO £50K DEPENDANT ON EXPERIENCE

Date: 16 Feb 2018

"It's up to us. One generation to lay down the fundamentals for the future. This is the digital revolution - you are the digital revolution. You've got to make this happen. Pass on this legacy so when you're grandchildren look back at you, you did the right thing, got us off carbon, and showed the proper respect to the generations not yet here."

Jeremy Rifkin, 2018

You might not save the world at Bellvedi, but we are making a difference. If you share our aspirations and values we'd love you to get in touch.

Role requirements

We are looking for a sharp and detail focussed person to fill this new role to help update and maintain the datasets upon which our software is based. There is plenty of potential for the role to develop, into management, consultancy and software development.

You will be required to:

- Help analyse and understand data from the rail industry on for example the layout of the infrastructure and the planning rules, which are often wordy and inconsistent.
- Undertake training on our software with customers, providing the link between the technical application and the practicalities of the day to day.
- Customer relationship management.

Skills

To be successful in the role, the following skills will be useful:

- A familiarity with UK rail timetable planning.
- Relaxed but professional communication skills, to be comfortable dealing with customers who may be unsure of their requirements, to avoid that uncertainty leading to frustration and dissatisfaction.
- Abstract intelligence to interpret complicated data and wording.
- A combination of programming and excel skills to maximise the potential to automate the data capture process.

Qualifications

A high-level of attainment at GCSE and A-level (or equivalent) in a number of subjects, plus degree-level or higher education in a relevant area would help demonstrate your appropriateness for the job.

Terms

Location is flexible, but would ideally be based in Berkhamsted, Hertfordshire or Leeds, West Yorkshire, otherwise home working can be considered. Salary will be agreed depending on experience. We offer

a share save scheme, 3 days volunteering, a contributory pension (matching up to 10%), charity giving matching and 28 days annual leave.
